Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 10-11, 13-22, 24-25, 27-37, 39-48 are rejected under 35 U.S.C. 102(b) as being anticipated by Krupp (US 3112234).

Krupp discloses the claimed invention including *inter alia* a **filament-wound tank** apparatus comprising a tank; a wound filament structure extending externally around and reinforcing said tank, said wound filament structure having an outer surface; at least one single layer, open weave reinforcing patch 77 disposed between said tank 10 and said outer surface of said wound filament structure and being secured to said wound filament structure; and an opening extending into the interior of said tank from said outer surface of said wound filament structure and through said at least one patch.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9, 12, 23, 26, 38, 49 are rejected under 35 U.S.C. 103(a) as being unpatentable over Krupp.

Art Unit: 3742

Krupp discloses the claimed invention except explicitly disclosing that the hole in the patch is reinforced about its periphery. It is well known and common knowledge in the art to provide reinforcing about a hole in a fabric/weave in order to prevent tearing. It would have been obvious to one of ordinary skill in the art at the time the invention was made to include a stitching around the periphery of the hole in order to prevent tearing.

Response to Arguments

Applicant's arguments with respect to claims 1-49 have been considered but are moot in view of the new ground(s) of rejection.

It is noted that applicant's arguments do not challenge the examiner's assertion of common knowledge in the art with respect to claims 9, 12, 23, 26, 38, 49, as such, the examiner's assertion is now considered to be admitted prior art. Further, applicant's only argument with respect the Office Action of 09/28/2004 relate to the "wound-filament" status of the Dorsch reference and the "open weave" characterization of the Dorsch doily. The examiner has changed the rejection based on applicant's persuasive arguments thereto.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thor S. Campbell whose telephone number is 703-306-9042. The examiner can normally be reached on Tue-Fri 5:30AM-4:00PM.
